REGULATION

Cayman Islands Mutual Funds Law

The Company falls within the definition of a Mutual Fund in terms of the Mutual Funds Law (as revised) of the Cayman Islands (the "Mutual Funds Law") and requires to be licensed in terms thereof. Accordingly the obligations of the Company are:

- (a) to license the Company with the Cayman Islands Monetary Authority (the "Monetary Authority") in the Cayman Islands;
- (b) to file with the Monetary Authority prescribed details of this Memorandum and changes to it together with evidence to satisfying the Monetary Authority that:
 - (i) each promoter is of sound reputation;
 - (ii) the administration of the Company will be undertaken (1) by persons who have sufficient expertise to administer the Company; and (2) by persons who are fit and proper to be directors or, as the case may be, managers or officers in their respective positions; and

The Monetary Authority may take certain actions if it is satisfied that the Company is:

There are other remedies available to the Monetary Authority including the ability to apply to the court for approval of other actions.

INVESTMENT OBJECTIVE AND STRATEGY

GENERAL

The Fund will seek to provide investors with long-term capital growth, by investing the capital and income of the Fund primarily in equity and fixed income securities issued by energy and energy-related corporations.

Specifically, the primary objective in the investment management of Fund Assets shall be to achieve growth by diversifying the portfolio across a range of energy and energy related corporations, including alternative energy. The Fund will overweight and underweight in energy and energy-related securities in response to the global economic outlook. However, at any point in time, at least 80% of Fund Assets will be invested in energy and energy-related securities.

The portfolio composition will be varied to reflect up market and down-market scenarios. The Directors, having regard to the advice of the Investment Advisor, reserve the right to invest the Fund Assets in such manner as they deem most appropriate from time to time. The Fund Assets need not be balanced between equity and fixed income securities and may be entirely invested in one of such asset classes at any given time.

The Investment Advisor shall make reasonable efforts to preserve capital, overall, even though losses may occur in individual securities. Although reasonable risk is necessary to produce long-term investment results meeting the Fund's objectives, the Investment Advisor will make reasonable efforts to control, manage and mitigate risk.

Risk will be managed by:

- under-weighting/over-weighting in energy and energy related sectors in response to global macro-economic fundamentals such as growth;
- diversification across sectors: oil and gas and alternative energy;
- maintaining an acceptable credit quality for bonds provided by credit rating agencies such as, Standard & Poor's ratings, Moody's ratings and internal credit ratings.

Rebalancing of the portfolio will take place as needed to take advantage of economic, industry and financial market conditions and also to make adjustments that will bring the portfolio in line with risk-return targets. Investment performance and asset allocations will be reviewed on a quarterly basis.

Investment in the Fund entails a high degree of risk. There can be no assurance that the investment objective of the Fund will be achieved. See "Investment Risks."

CERTAIN INVESTMENT PRACTICES

Liquidity Borrowing

The Fund will not engage in leverage in connection with its investment activities but may borrow from any authority, organisation or person against such security and such terms and conditions as may be agreed upon between the Directors and such authority, organisation or person as it may deem necessary for the purpose of financing the redemption of Participating Shares, up to a maximum of 5% of Fund Assets.

INVESTMENT RESTRICTIONS

In investing in securities, the Directors shall not invest more than 10% of the Fund Assets in the purchase of securities of any one company or other entity. Furthermore, the Directors shall not purchase a security of an issuer if, after the purchase, the Fund would control more than 10% of the voting securities of that issuer.

DISTRIBUTION POLICY

Dividends may be declared and paid on the Participating Shares in the discretion of the Directors. However, the Directors currently have no intention to declare dividends on the Participating Shares and propose instead to reinvest the income of the Fund.

RISK FACTORS

There can be no assurance that the investment objective of the Fund will be achieved. The value of Participating Shares may go down as well as up and there can be no assurance that on a redemption, or otherwise, investors will receive back the amount originally invested. Values of underlying Investments may also fluctuate widely. Accordingly, the Participating Shares are only suitable for investment by investors who understand the risk involved and who are able and willing to withstand the total loss of their investment. Investment in this Fund should be considered as long-term in nature. Set forth below are certain factors that should be taken into consideration before making a decision to subscribe for Participating Shares. While the Directors believe the following to be comprehensive, it is not intended to include all of the factors relating to the risks that may be encountered. All investors should read this entire Offering Memorandum and consult their legal and financial advisors before deciding whether this investment is right for them.

ENERGY SECTOR RISK

The Fund can invest up to 70% of its assets in the common stocks of companies principally engaged in energy-related activities, such as production and transmission of energy or energy fuels; alternative energy; energy research; and energy conservation or pollution control; energy servicing; energy mid-stream and down-stream activities. The Fund is therefore subject to industry concentration risk, which is the chance that there will be overall problems affecting a particular industry. The Fund's performance therefore largely depends, for better or for worse, on the overall condition of the energy industry.

The Fund faces the risk that the earnings, dividends, and stock prices of energy companies will be greatly affected by changes in the prices and supplies of oil, gas and other energy fuels. Prices and supplies of energy can fluctuate significantly over short and long periods because of a variety of factors, including changes in international politics; policies of the Organisation of Petroleum Exporting Countries (OPEC); relationships among OPEC members and between OPEC and oil-importing nations; energy conservation; the regulatory environment; government tax policies; and the economic growth and stability of the key energy-consuming countries. Because the Fund's performance depends on a variety of factors affecting energy companies, rather than on the stock markets in general, the performance of the Fund could decline, even if the performance of the U.S. or other stock markets is positive.

STRUCTURAL RISKS OF THE FUND

Currency Risk

The Net Asset Value per Participating Share will be calculated in U.S. Dollars, whereas the Fund's Investments may be acquired in other currencies. The value of the Investments of the Fund may therefore rise and fall due to exchange rate fluctuations of individual currencies. Adverse movements in currency exchange rates can result in a decrease in return and a loss of capital.

Limited Prior Operations

The Fund has a limited trading record.

Conflicts of Interest

Certain of the Directors of the Company are also officers and/or directors of the Investment Advisor. Thus, such Directors, and the Investment Advisor have a conflict of interest between their duty to act in the best interest of the Company, and their interest in benefiting the Investment Advisor.

The Investment Advisor, as holder of all the Management Shares, controls all of the voting interests in the Company. Only the Investment Advisor therefore can appoint and remove the Directors of the Company. Only the Directors may terminate the services of the Investment Advisor and other agents of the Company.

The Investment Advisor may also provide investment management services to companies other than the Company; conflicts may arise between the interests of the Fund and those of other accounts and clients. In that connection, the Investment Advisor may give advice in the performance of its duties to other clients that may differ from the timing and nature of action taken with respect to the Fund. Because of different objectives or other factors, a particular asset may be bought for one or more managed funds (including the Fund), companies or accounts, when one or more of the other funds, companies or accounts advised by the Investment Advisor are selling the same asset. Also, if purchases or sales of assets are made by the Investment Advisor for two or more of such funds, companies or accounts, or arise for consideration at or about the same time, transactions in such assets will be allocated, insofar as feasible, for the respective funds, companies and accounts in a manner determined by the Investment Advisor to be equitable to all. As a result of a number of factors including the foregoing considerations, the results of the Fund's investment activities may differ significantly from the results of other funds, companies or clients advised by the Investment Advisor. There may be circumstances when purchases or sales of assets for one or more funds, companies or accounts advised by the Investment Advisor have an adverse effect on other funds (including the Fund), companies or accounts advised by the Investment Advisor, including a negative effect on the price of securities owned by the Fund or which the Fund desires to purchase.

Dependence on Key Employees

The Fund's investment performance will depend substantially on the services of the principals of the Investment Advisor. In the event of the death, disability or departure of any of the individuals, the business of the Fund may be adversely affected.

Limited Voting Rights

The Participating Shares do not carry the right to vote, except on proposals to amend their class rights. Consequently, Participating Shareholders will not have any control over the management of the Company (and by extension the Fund) or the appointment and removal of its directors and service providers. An Investment in the Fund should be regarded as a passive Investment.

Non-Transferability of Participating Shares, Restrictions on Redemptions and Compulsory Redemption

Participating Shares will not be transferable without the prior written consent of the Company, which consent may be withheld by the Company in its sole discretion. The Company has the right to compulsorily redeem Participating Shares in certain circumstances.

Effect of Substantial Withdrawals

In the event that the Company faces substantial redemptions of Participating Shares, it may be more difficult for the Fund to generate the same level of profits operating on a small capital base. In the event that there are substantial redemptions on any date, the Company may find it difficult to adjust the asset allocation and trading strategies to the suddenly reduced amount of assets held by the Fund. Under such circumstances, in order to provide sufficient funds to pay redemptions, the Company might be required to liquidate positions in the Fund's portfolio at an inappropriate time or on unfavorable terms.

Valuation

Because of the overall size and concentrations in particular markets and maturities of positions that may be held from time to time, the liquidation values of the securities and other Investments held may differ significantly from the interim valuations of such Investments derived from the valuation methods described herein. Such differences may be further affected by the time frame within which such liquidation occurs. Third party pricing information may at times not be available regarding securities and other Investments held by the Fund. Valuations of the securities and other Investments held will affect the amount of the Management Fees, valuations may involve uncertainties and determinations based upon judgment, and if such valuations should prove to be incorrect, the related Net Asset Value of the Fund, could be adversely affected. In the absence of bad faith or manifest error, valuation determinations will be conclusive and binding.

INVESTMENT RISKS OF THE FUND

Counterparty and Settlement Risk

The Fund may take a credit risk with whom it trades and may also bear a risk of settlement default.

Investment and Trading Risk Generally

Investments in securities and other financial instruments and products that are subject to market forces risk the permanent loss of capital as a result of adverse market developments, which can be unpredictable. To the extent that the Fund's portfolio is concentrated in any one particular investment strategy, the risk of any incorrect investment decision is increased. No guarantee or representation is made that the Fund's investment program will be successful.

Availability of Investment Strategies

Identification and exploitation of the investment strategies to be pursued by the Fund involves a high degree of uncertainty. No assurance can be given that the Fund will be able to locate suitable investment opportunities in which to deploy all of the monies held. A reduction in the volatility and pricing inefficiency of the markets in which the Fund seeks to invest its assets will reduce the scope of the investment strategies of the Fund.

Legal, Tax and Regulatory Risks

Legal, tax and regulatory changes could occur, and in the event of such occurrence, the Investment return of the Fund may be adversely affected.

Diversification

Although diversification is used as one of the tools of risk management of the Fund, the extent that Investments are concentrated in a particular security or market, such Investments will become more susceptible to fluctuation in value resulting from adverse economic and business conditions affecting that particular security or market.

Risks of Global Investing

The Fund will be subject to risks relating to (i) currency exchange matters, including fluctuations in the rate of exchange between the U.S. Dollar and the various other currencies in which the Fund's assets may be invested, and costs associated with conversion of investment principal and income from one currency into another and (ii) the possible imposition of withholding taxes on income received from the issuer of, or gains with respect to, such securities. In addition, investing in certain of these capital markets involve certain factors not typically associated with investing in established securities markets, including risks relating to (i) differences between markets, including potential price volatility in and relative illiquidity of some securities markets, (ii) the absence of uniform accounting, auditing and financial reporting standards, practices and disclosure requirements, and less governmental supervision and regulation and (iii) certain economic and political risks, including potential exchange control regulations and potential restrictions on investment and repatriation of capital.

The Directors currently have no intention of utilising hedging strategies to mitigate the aforementioned risks, but may do so if deemed appropriate.

MANAGEMENT AND ADMINISTRATION

DIRECTORS

The Directors are responsible for managing the business affairs of the Company (and by extension the Fund). The Directors may delegate certain functions to other parties subject to supervision and direction by the Directors.

The Board of Directors of the Company will comprise a maximum of five Directors, the majority of whom shall not be employees of the Investment Advisor (but may be non-executive directors thereof or consultants thereto). In its capacity as such, the Investment Advisor will be delegated discretionary asset management powers in relation to the trading, investing and reinvesting of the assets of the Fund, and will manage the assets of the Fund in accordance with the investment objective, policies and restrictions set out herein, subject to the overall supervision of the Directors.

The Investment Advisor is entitled to the fees described under "Fees and Expenses" below in respect of its investment management services, as and when they are provided.

The Investment Advisory Agreement is to remain in force until terminated by either party giving not less than 90 days' written notice or at any time by written notice if the other party goes into liquidation (except a voluntary liquidation for the purpose of reconstruction or amalgamation upon terms previously agreed by the parties in writing) or if a court of competent jurisdiction shall order the winding up of or if a receiver is appointed over any of the assets of a party, or if all the Participating Shares are redeemed, or if a party shall commit a material breach of the provisions of the agreement and, if capable of remedy, shall not have remedied the same within thirty days after service of notice requiring it to be remedied.

On termination of the Investment Advisory Agreement no additional payment will be required to be made but there will be charges to the Fund for outstanding fees and additional expenses necessarily incurred in connection with the termination.

The Investment Advisory Agreement provides that the Investment Advisor shall not be liable for any loss suffered by the Fund in connection with the services provided by the Investment Advisor under the said Agreement other than a loss arising from the wilful misfeasance, fraud or gross negligence of the Investment Advisor or reckless disregard by it of its obligations under the said agreement and contains an indemnity by the Fund in favour of the Investment Advisor in respect of all losses, claims, damages, liabilities, costs and expenses whatsoever incurred by it pursuant to or in connection with the Investment Advisory Agreement unless due to the wilful misfeasance, fraud or gross negligence of the Investment Advisor or reckless disregard by it of its obligations under the said agreement.

The Investment Advisory Agreement is governed by the laws of Trinidad & Tobago.

Eligible Investors

The Directors may impose such restrictions and require such warranties as they consider necessary or desirable for the purpose of ensuring that no Participating Shares are held by or for the benefit of the following: (i) any person in breach of the law or requirements of any country or governmental authority; or (ii) any person who has given representations in a subscription agreement and revocable proxy which were not true when given or have ceased to be true; or (iii) any person or persons in circumstances (whether directly or indirectly affecting such person or persons and whether taken alone or in conjunction with any other person or persons, connected or not, or any other circumstances appearing to the Directors to be relevant) in which in the opinion of the Directors the continuing ownership of Participating Shares by such person or persons would cause an undue risk of adverse tax or other consequences to the Company or any of its Shareholders. All such persons are currently defined as Non-qualified Persons in the Articles, and will not be Eligible Investors.

Payment Instructions

Payment for Participating Shares must be made by way of cash, guaranteed cheque, bank draft or wire transfer, net of bank charges, on or before the relevant Subscription Day in cleared funds in U.S. Dollars. REDEMPTIONS

Participating Shares may be redeemed at the Offer Price as at the close of business on the relevant Redemption Day. The Directors may in their absolute discretion, prescribe an initial period or periods from the dates of issue of Participating Shares during which the redemption of Participating Shares is not permitted. Any such restriction on redemptions may be prescribed, waived or modified by the Directors in their absolute discretion generally or in respect of any group of Participating Shareholders or a specific Participating Shareholder.

Participating Shareholders wishing to redeem their Participating Shares should deliver an executed Redemption Form, in the form attached hereto as Appendix B, to the Company, at the address specified in the Redemption Form. The completed Redemption Form must be received by the Company *at the address specified in the Redemption Form* by 11.30am (Trinidad and Tobago time) on the day on which the redemption is to be effected, and if received thereafter will be held over and dealt with on the next

Redemption Day. The Directors may in their absolute discretion determine to process Redemption Terms received after this time on the Redemption Day of receipt.

The Redemption Form may be delivered to the Company by facsimile, so long as the original Redemption Form is immediately forwarded to the Company *at the address specified in the Redemption Form*. Neither the Company, the Directors nor any other agents of the Company accept any responsibility for any errors in facsimile transmission.

Where a Redemption Form is forwarded by facsimile, no redemption proceeds will be paid until the original Redemption Form has been received and accepted by the Administrator in Trinidad & Tobago on behalf of the Company.

The Company reserves the right to refuse to make any redemption payment or distribution to a Participating Shareholder if any of the Directors of the Company suspects or is advised that the payment of any redemption or distribution moneys to such Participating Shareholder might result in a breach or violation of any applicable anti-money laundering or other laws or regulations by any person in any relevant jurisdiction, or such refusal is considered necessary or appropriate to ensure the compliance by the Company, its Directors and any agents of the Company with any such laws or regulations in any relevant jurisdiction. Under no circumstances, however, will payment be made to any party other than the registered shareholder.

Once given, a redemption notice may not be revoked by the Participating Shareholder save where determination of the Net Asset Value of the Fund is suspended by the Directors in the circumstances set out below or except as otherwise agreed by the Directors.

Redemption Proceeds

Redemption proceeds will be paid in U.S. Dollars and if by wire transfer at the request and expense of the redeeming Participating Shareholder usually within 3 Business Days of the relevant Redemption Day.

The Directors may elect to satisfy payments due in respect of the redemption of Participating Shares by the transfer of assets of the Fund to the redeeming Shareholder, but only in circumstances in which the Directors deem that sufficient assets to pay the amount payable in respect of such redemption may not be disposed of, or may be disposed of only at a value below the value of such assets that the Directors deem fair, before the relevant Redemption Day.

Compulsory Redemption

Participating Shareholders are required to notify the Company immediately in the event that they cease to be Eligible Investors whereupon they may be required to, and the Company shall be entitled to, redeem their Participating Shares at the Offer Price as at the close of business on the relevant Redemption Day. The Company reserves the right to redeem any Participating Shares that are or become owned, directly or indirectly, by or for the benefit of any person who is not an Eligible Investor.

Furthermore, the Company shall be entitled with or without cause, by notice in writing to the holders of the Participating Shares being redeemed, to redeem all or any Participating Shares on any Redemption Day compulsorily which shall be not less than twenty days from the date of such notice.

TRANSFERS

Each investor must represent and warrant in the Subscription Agreement that it is purchasing the Participating Shares for its own account, and not with a view to the assignment, transfer or disposition of such interest. Participating Shareholders may not assign, transfer or otherwise dispose of, by gift or otherwise, any of their Participating Shares without written notice to, and the prior written consent of, the Directors, which consent they may withhold for any or no reason.

The notice to the Company must include evidence satisfactory to the Directors that the proposed assignment, transfer or disposition is in accordance with the laws applicable to the Participating Shareholder and the proposed transferee, that the proposed transferee meets any requirements imposed by the Company with respect to investor or transferee eligibility and suitability, or both, and must be accompanied by the duly executed instrument of transfer, in a form satisfactory to the Company, a Subscription Agreement duly executed by the transferee and such verification of identity documentation relating to the transferee as may be requested by the Company (see the section entitled “Anti-Money Laundering Regulations” below).

If an assignment, transfer or disposition occurs by reason of the death of a Participating Shareholder, the duly authorised representative of the estate of the Participating Shareholder may give the required notice. Where such deceased Participating Shareholder shall have designated a beneficiary or beneficiaries of its interest in Participating Shares in the Subscription Agreement, upon being given satisfactory evidence that such beneficiary or beneficiaries meet the foregoing requirements, the Directors shall consent to any such assignment, transfer, or other disposition of Participating Shares to any such beneficiary or beneficiaries.

The foregoing notice must be supported by proof of legal authority and a valid assignment acceptable to the Company.

The transferor shall be deemed to remain the holder of a Participating Share until the name of the transferee is entered in the Register of Members in respect thereof. The Directors shall refuse to register a transfer to or for the benefit of any person who is not an Eligible Investor.

ANTI-MONEY LAUNDERING REGULATIONS

To ensure compliance with applicable statutory requirements relating to anti-money laundering initiatives, the Company will require verification of identity from all prospective investors. Depending on the circumstances of each subscription, it may not always be necessary to obtain full documentary evidence of identity. Details of the documentation required is contained in the Schedule to the Subscription Agreement.

The Company also reserves the right to request such identification evidence in respect of a transferee of Participating Shares. In the event of delay or failure by the prospective investor or transferee to produce any information required for verification purposes, the Company on its behalf may refuse to accept the application or (as the case may be) to register the relevant transfer, and (in the case of a subscription of Participating Shares) any funds received will be returned without interest to the account from which such funds were originally debited.

If any person resident in the Cayman Islands, including the Company's attorneys or the Company, and, if applicable, any of its Directors knows or suspects that a payment to the Company (by way of subscription or otherwise) is the proceeds of criminal conduct, such person is required to report such information pursuant to the Proceeds of Crime Law of the Cayman Islands and such report shall not be treated as a breach by such person of any restriction imposed on such person by law or otherwise on the disclosure of information.

NET ASSET VALUE DETERMINATION

The Net Asset Value of the Fund means the total assets of the Fund, including all cash, cash equivalents, less total liabilities of the Fund, determined as of the close of business in Trinidad & Tobago on the Valuation Day in accordance with International Financial Reporting Standards, subject to the provisions below:

- a) The Net Asset Value of the Fund will include any unrealised profits or losses subject to (f) and (g) below;
- b) The amount of any dividend declared by the Company or in respect of the Participating Shares shall be a liability in the calculation of the related Net Asset Value of the Fund and the Net Asset Value per Participating Share from the day on which such dividend is declared until the date of payment;
- c) Securities and assets quoted on a securities exchange shall be valued at the daily closing price or, if there has been no sale that day or the preceding Business Day, the latest available daily closing price on the principal market for such securities;
- d) Securities and assets not quoted on a securities exchange (other than those described in paragraph (e) below) shall be valued by an appropriate pricing method or source as deemed by the Investment Advisor and Administrator;
- e) Cash, deposits, certificates of deposit and interest bearing securities the prices of which are not quoted on a securities exchange or computerised market system shall be valued at their principal amount plus accrued interest from the date of acquisition; and certificates of deposit and interest bearing securities acquired at a discount or a premium shall be valued in accordance with normal practice relating thereto;
- f) For instruments that are not paying or have not regularly paid interest on the relevant due dates, interest shall be recognised on a “cash basis”, meaning that revenue shall only be recognised when payment is made;
- g) The Company may incur certain expenses (principally administrative in nature) that cannot be directly attributable to any Segregated Portfolio. Such expenses shall be apportioned daily or monthly between the Segregated Portfolios on the basis of the relative Net Asset Value of such Segregated Portfolios;
- h) Where no method of calculation is specified herein, or where, in the opinion of the Directors or any Investment Advisor, the method of calculation is unfair or impractical, the Directors or the Investment Advisor (if any) shall use such method of calculation as it may agree with the Directors as being fair and reasonable and otherwise in accordance with International Financial Reporting Standards;
- i) The Net Asset Value of the Fund shall be calculated in U.S. Dollars, and assets and liabilities denominated in other currencies shall be converted to U.S. Dollars as at the close of business on the applicable Business Day, at the prevailing rate of exchange quoted by one or more banks, dealers or pricing services selected by or on behalf of the Directors.

The Net Asset Value per Participating Share will be calculated by dividing the Net Asset Value of the Fund by the number of Participating Shares in issue.

The Directors may, in their sole and absolute discretion, suspend the determination of the Net Asset Value of the Fund or the Net Asset Value per Participating Share, and consequently the rights of redemption of Participating Shares hereunder, in such circumstances as they deem appropriate. These circumstances include, but are not limited to:

- a) during any state of affairs which, in the judgment of the Directors, constitutes an emergency which would render a disposition of the Fund's assets impracticable or seriously detrimental to the Participating Shareholders;
- b) when, for any reason, including a breakdown in the means of communication normally employed in determining the Net Asset Value of the Fund such Net Asset Value cannot be promptly and fairly ascertained;
- c) during any period when any market on which a substantial part of the market instruments held by the Fund are traded is closed, other than for ordinary holidays and weekends, or during periods in which dealings in such securities are restricted or suspended; and
- d) when distributions or withdrawals would, in the opinion of the Directors of the Company, result in a violation of applicable law.

All Participating Shareholders will be notified of any such suspension, and the termination of such suspension, by means of a written notice.

Indemnities and Exculpation

To the fullest extent permitted by applicable law, the Company will indemnify and save harmless the Directors, their affiliates and any of their respective partners, officers, employees, directors, members and shareholders (the “Indemnitees”) from and against any and all claims, liabilities, damages, losses, costs and expenses including amounts paid in satisfaction of judgments, in compromises and settlements, as fines and penalties and legal or others costs and expenses of investigating or defending against any claim or alleged claim, of any nature whatsoever, known or unknown, liquidated or unliquidated, that are incurred by any Indemnitee and arise out of or in connection with the business of the Company or any Segregated Portfolio or the performance by the Indemnitee of any services on behalf of the Company or any Segregated Portfolio, provided that the Indemnitee acted in good faith and in a manner the Indemnitee reasonably believed to be in or not opposed to the best interests of the Company or Segregated Portfolio, as applicable, and the Indemnitee’s conduct did not constitute willful misconduct, gross negligence (as such term is interpreted in accordance with the laws of the State of New York) or criminal wrongdoing. Reasonable attorneys’ fees and other costs and expenses incurred by an Indemnitee in defense or settlement of any claim that may be subject to a right of indemnification under the Articles will, in the sole discretion of the Directors, upon advice of counsel that such Indemnitee is likely to be entitled to such indemnification, be advanced by the Company prior to the final disposition thereof upon receipt of an undertaking by or on behalf of the Indemnitee to repay the amount advanced to the extent that it shall be determined ultimately that the Indemnitee is not entitled to such indemnification. PROVIDED HOWEVER that any payment by the Company in respect of liability incurred on behalf of a Segregated Portfolio shall be payable only from, and shall be restricted to, the assets of the Segregated Portfolio in respect of which such liability arose.

To the fullest extent permitted by law, the Indemnitees will not be liable to the Company, any Segregated Portfolio or any Shareholder for any losses due to any act or omission of such Indemnitee in connection with the conduct of the business of the Company or any Segregated Portfolio that is determined in good faith by such Indemnitee to be in or not opposed to the best interests of the Company or the Segregated Portfolio, as applicable, unless the act or omission constitutes willful misconduct, gross negligence (as such term is interpreted in accordance with the laws of the State of New York) or criminal wrongdoing by such Indemnitee. In addition, no Indemnitee will be liable to the Company, any Segregated Portfolio or any Shareholder for any losses due to the mistakes, negligence, misconduct or bad faith of any broker or other agent of the Company or any Segregated Portfolio selected by such Indemnitee with reasonable care. An Indemnitee may consult with legal counsel or accountants selected by it, and any act or omission by it on behalf of the Company or any Segregated Portfolio in furtherance of the business of the Company or such Segregated Portfolio in good faith in reliance on and in accordance with the advice of such counsel or accountants shall be full justification for the act or omission and such Indemnitee shall be fully protected in so acting or omitting to act if the counsel or accountants were selected with reasonable care.

This discussion is based on laws, regulations promulgated thereunder, published administrative rulings and judicial decisions currently in effect, all of which may change or be subject to different interpretations possibly with retroactive effect.

In view of the number of different jurisdictions where local laws may apply to Shareholders, the discussion below does not address the tax consequences to potential investors of the purchase, ownership, and disposition of Participating Shares. Prospective investors are urged to consult their own tax advisors in determining the possible tax consequences to them under the laws of the jurisdictions of which they are citizens, residents or domiciliaries, jurisdictions in which they conduct business and jurisdictions in which they hold Participating Shares. This discussion does not constitute tax advice.

**ADDENDUM TO THE PROSPECTUS
FOR TRINIDAD AND TOBAGO INVESTORS ONLY**

Suitability of investment for different classes of investors

This Fund can invest up to seventy percent (70%) of its assets in the common stocks of companies principally engaged in energy-related activities. The Fund, therefore, is subject to industry concentration risk, which is the chance that there will be overall problems affecting the entire energy industry.

The Fund's performance therefore largely depends, for better or for worse, on the overall condition of the energy industry.

The value of the participating shares may go down as well as up and there can be no assurance that on a redemption or otherwise, investors will receive back the amount originally invested.

As such, the Fund is only suitable for investment by investors who understand the risks involved and who are able and willing to withstand the total loss of their investment. Investment in the Fund should be considered long-term in nature.

Formula for Calculating the Performance Data for the Fund

The performance data of the Fund will be calculated as the annualised return and as described below:-

(Offer Price at the end of the year plus dividend payments throughout the year) minus the Offer Price at the beginning of the year, all divided by the Offer Price at the beginning of the year multiplied by 100.

e.g: Let P be the Offer Price per Participating Share at the beginning of the year
E be the Offer Price per Participating Share at the end of the year
D be the total of dividend payments per share throughout the year
Y be the annualized return

Therefore:

$$Y = \frac{(E + D) - P}{P} \times 100$$

Frequency and location of published performance data for the Fund

Price, Net Asset Value (NAV)

The Offer Price will be published daily in Trinidad and Tobago newspapers and will be available on the website of the Trinidad & Tobago Unit Trust Corporation (www.ttutc.com). The Offer Price will be the Net Asset Value per Participating Share as at the close of business on the immediately preceding Business Day.

The table below describes the fees and expenses that an investor may pay if they purchase and hold shares in the Fund:

I. Investor Fees

Redemption Fee..... None

Exchange Fee..... None

II. Annual Fund Operating Expenses

Investment Management Fees

Fundamental Changes

The Board of Directors of the Company reserves the right to undertake the following changes:

- (a) A change to the auditor of the Fund;
- (b) A change to the investment manager of the Fund; and
- (c) An increase in fees or expenses charged to the Fund including, but not limited to, an increase in investment management fees

The Board, at its discretion, may seek the consent of participating shareholders to undertake changes to the investment objectives of the Fund beyond the discretion stated in the Offering Memorandum.

A change to the methodology used to calculate the Net Asset Value of the Fund can be undertaken through amendment of the Company's Articles of Association, and with the consent of affected participating shareholders.

Furthermore, the Directors shall be entitled with or without cause, by notice in writing to the holders of the Participating Shares being redeemed, to redeem all or any Participating Shares at the prevailing NAV on any Redemption Day compulsorily which shall be not less than twenty days from the date of such notice.
